

2023 School Improvement Plan Summary

(Insert Site Name here)

Goals	Targets	Challenge of Practice	Success Criteria
Increase student SEA achievement in Numeracy	<p>2022: 9/11 year 3s achieved Sea in NAPLaN Numeracy 7/14 year 5s achieved SEA in NAPLaN Numeracy 2 year 3 students achieved high bands in NAPLaN Numeracy</p> <p>2023: 75% year 3s achieve SEA in NAPLaN Numeracy 33% year 3s achieve Higher Bands in NAPLaN Numeracy 80% year 5 students achieve SEA in NAPLaN Numeracy 20% year 5 students achieve Higher bands in NAPLaN Numeracy 100% of identified students make expected growth or higher in PAT-M</p> <p>2024: Increase SEA achievement for 2022 year 3s and Year 5s</p>	If we strengthen our whole school approach to teaching students to choose and apply appropriate mathematical strategies for problem solving and strengthening number fact knowledge, we will see an increase in student SEA achievement in NAPLaN Numeracy.	<p>Students will apply strategies from their "Number Facts" program work in a variety of contexts:</p> <p>Reception – count to and from 20, use counting strategies to solve problems using manipulatives</p> <p>Year 1 – count to and from 100 and locate these numbers on number line – partition numbers using place value – carry out simple additions & subtractions using counting strategies</p> <p>Year 2 – count to & from and order numbers up to 1000 – perform simple addition and subtraction calculations using a range of strategies</p> <p>Year 3 & 4 – model, represent, order and use numbers up to 5 digits – estimate a solution to problem and then check the solution by recalling addition, subtraction, multiplication and division facts</p> <p>Year 5 & 6 – model, represent, order and use numbers larger than 1 million- solve problems and check calculations using efficient mental and written strategies</p>
Increase student high band achievement in NAPLaN Writing	<p>2022: 2 year 3 students achieved high bands in NAPLaN Writing</p> <p>2023: 75% year 3s achieve SEA in NAPLaN writing 33% year 3 students achieve High Bands in NAPLaN writing 60% year 5 students achieve SEA in NAPLaN writing 30% year 5 students achieve High Bands in NAPLaN writing</p> <p>2024: Increase high bands representation for year 3, and 7 students</p>	If we explicitly teach students to use a variety of sentence types, paragraphs, punctuation and language features throughout the use of different model texts, we will see an increase in writing achievement.	<p>Reception – correctly form lower & upper-case letters – write basic sentences using a capital letter and a full stop</p> <p>Year 1 – write short simple sentences using subject-verb-object – write simple sentences using full stops, capital letters, question marks and exclamation marks – consistently write capital letters for proper nouns</p> <p>Year 2 – write coherent simple sentences made up of basic verb groups, noun groups and phrases to express an idea – start organising sentences into paragraphs</p> <p>Year 3 – 6 – consistently use correct spelling & punctuation – write deliberately structured paragraphs to direct the readers' attention and move the reader forward – expand on ideas through intentional use of simple, compound and complex sentences</p>
